

## SuperFelt Insulation

### INSULATION SOLUTIONS

Atmo-Seal, Inc., (tm) supplies SuperFelt Carbon Insulation Curtain. Used in areas to insulate and protect your staff from temperatures up to 4,000 ° F

### FEATURES

Resistant to direct flame, sparks, molten metals

Highly resistant to tears and fraying

Offers abrasion protection for delicate surfaces

May be reused over and over again

Easily cut with shears, blades or scissors

### Technical and Test Data

Thickness - 1/4" nom.

Weight - 14 oz/yd<sup>2</sup>

Temperature exposures to 4000 F

100% Pan Based Carbon Fiber

Thermal Conductivity - 0.232 BTU-in/Hr-F-ft<sup>2</sup>

Thermal Resistance - 0.809 fr-F-ft<sup>2</sup>/BTU
